**Voi®**  
Laminate Desking

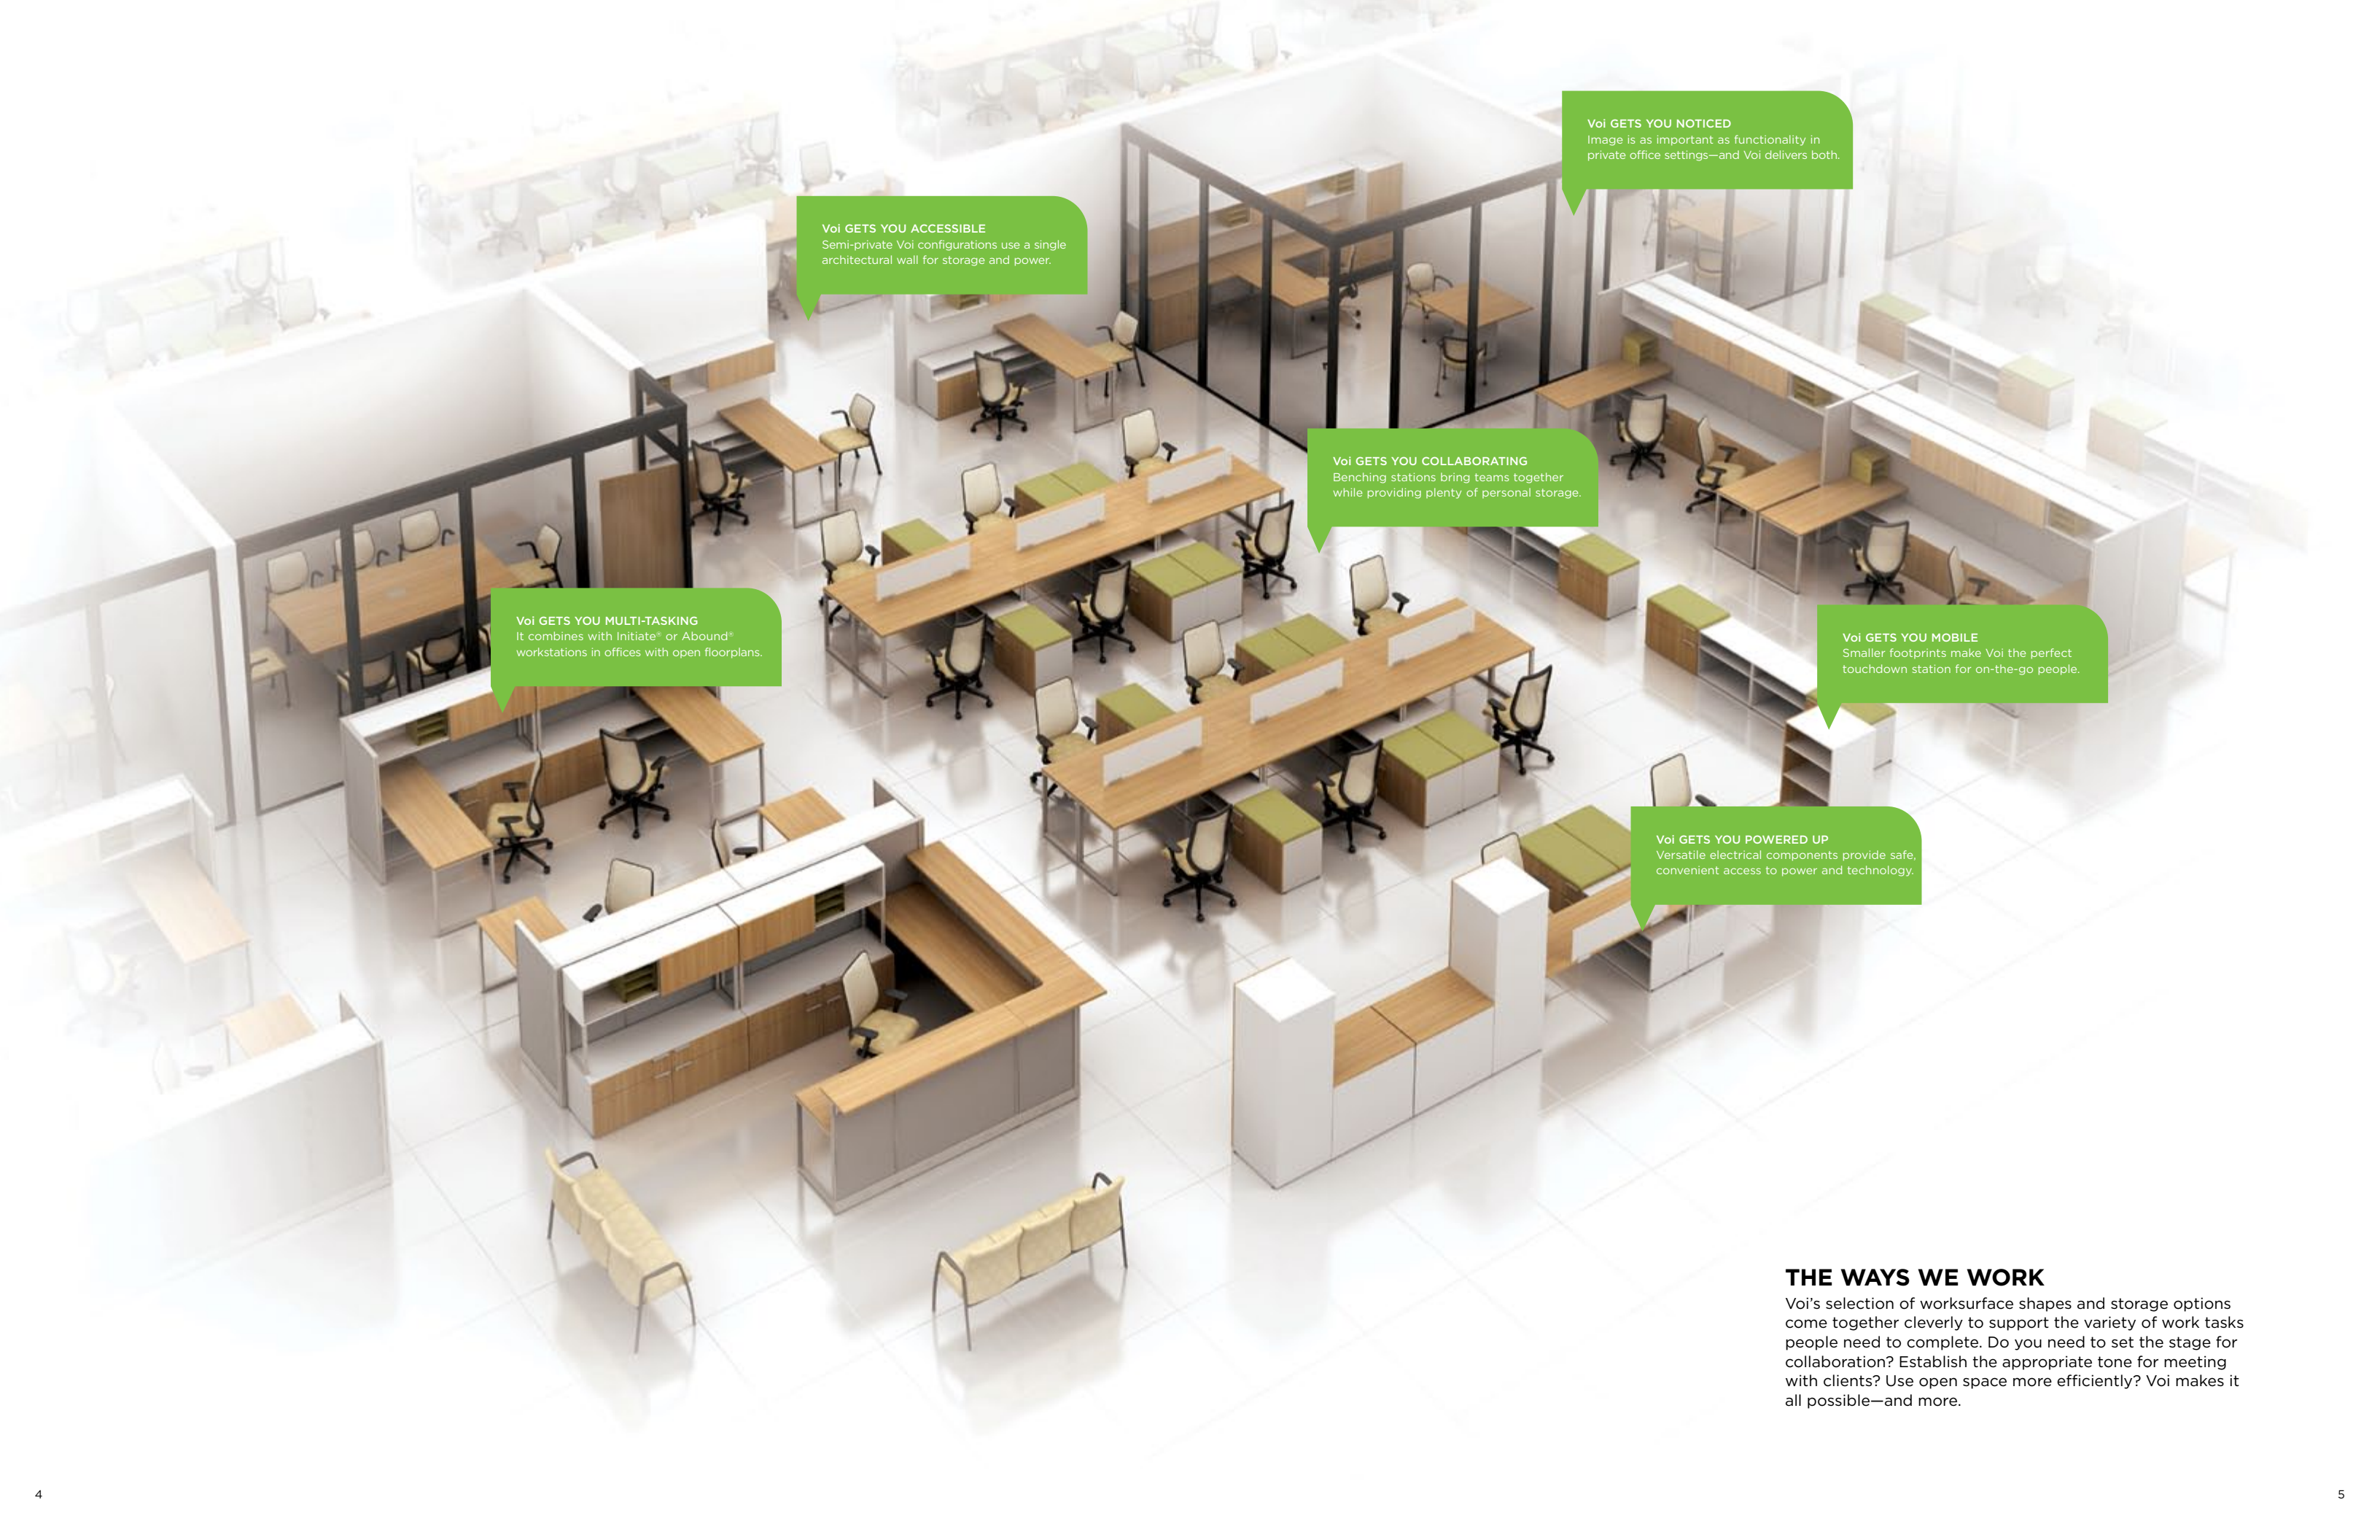

DESKING THAT  
GETS YOU

## Your Desk, Your Way

The people who work for your organization have a unified purpose. Shouldn't their desks have a unified look? Voi desking from The HON Company not only offers desks and storage solutions for every application—private offices, semi-private offices, open plan, benching, and more—it also presents an integrated design for the entire workplace.

Designed to meet the needs of any user, Voi's layered worksurfaces, practical storage components, versatile materials, and compact footprints can be personalized to achieve the right mix of functionality and style. Voi also meets your need for a solution that's easy to specify and intuitive to install. The line's efficient offering simplifies the whole purchasing process. And with HON-quality construction and top-grade laminate, you can trust that your investment will pay off for years to come.

**Voi GETS YOU ACCESSIBLE**  
Semi-private Voi configurations use a single architectural wall for storage and power.

**Voi GETS YOU NOTICED**  
Image is as important as functionality in private office settings—and Voi delivers both.

**Voi GETS YOU COLLABORATING**  
Benching stations bring teams together while providing plenty of personal storage.

**Voi GETS YOU MULTI-TASKING**  
It combines with Initiate® or Abound® workstations in offices with open floorplans.

**Voi GETS YOU MOBILE**  
Smaller footprints make Voi the perfect touchdown station for on-the-go people.

**Voi GETS YOU POWERED UP**  
Versatile electrical components provide safe, convenient access to power and technology.

## THE WAYS WE WORK

Voi's selection of worksurface shapes and storage options come together cleverly to support the variety of work tasks people need to complete. Do you need to set the stage for collaboration? Establish the appropriate tone for meeting with clients? Use open space more efficiently? Voi makes it all possible—and more.

C

**PRIVATE OFFICE**  
 Inside four walls with a door, Voi strikes the right mix of professionalism and personality for executives and managers.

D

**SEMI-PRIVATE**  
 Whether they're used by one person or shared, Voi semi-private offices are perfect for workers whose desking needs can be met in smaller footprints. In these applications, Voi uses architectural walls for storage support and power access.

E

**OPEN PLAN**  
 Voi desking partners with Abound and Initiate workstations to maximize space in open plan configurations. You can also leverage Initiate or Abound electrical components for a powered Voi solution.

F

**BENCHING**  
 Voi's privacy screens, storage solutions, and power/data accessories bring greater functionality to collaborative areas.

G

**TOUCHDOWN**  
 A simple Voi configuration supports visitors, customers, and others who need a short-term home base.

## THE SPACES IN YOUR SPACE

Voi's integrated design unites a workplace, bringing a variety of spaces together with a consistent style. You can easily outfit your entire facility with Voi: private offices, semi-private offices, benching stations, and touchdown stations. And the same kit of parts and pieces that form desks in these applications are compatible with HON's Initiate or Abound workstations in open plan configurations.

**LOTS OF LOOKS**

Voi's light scale and clean horizontal planes create a visual language that it carries throughout a workplace. The smart selection of top shapes, supports, storage components, materials, and color combinations gives Voi the flexibility to express the right image for your organization. Conventional to contemporary, Voi is just your style.

**PLENTY OF PARTICULARS**

Details? Voi's got them. These thoughtfully designed, practical touches mean a lot to people—and offer opportunities to further personalize their space.

**HANDLES**  
Voi's sleek, functional design means the options you select—right down to the storage handles—help shape its style.

**MIXED MATERIALS**  
Blend solid or patterned laminate worksurfaces with woodgrain laminate storage fronts and metal legs and trim for a contemporary mix of materials.

**STORAGE CUBES**  
Brightly colored metal storage cubes help enhance organization and add a distinctive punch of personality to any space.

**MODESTY PANELS**  
Modesty panels enhance seated privacy in Voi desks. They are available in full-height, half-height, or floating.

**PRIVACY SCREENS**  
Privacy screens—either above the worksurface, or above and below—lend a sense of personal space to a collaborative setting.

**POWER AND DATA**  
Whether you need basic wire management for one desk or a hardwire solution to accommodate several stations, Voi puts power and data access right where it's needed.

READY FOR TOMORROW

**BUILD YOUR DESK**  
Voi's selection of integrated components lets you easily configure a workspace that suits your needs.

**ADD AS NEEDED**  
As you grow, Voi can grow with you. Configurations are designed to expand, and power and data solutions are scalable.

**FULL SPEED AHEAD**  
The same parts and pieces can be reconfigured and supplemented to support the evolving demands of today's office.

**YOUR KIT OF PARTS**  
With a surprisingly minimal number of basic components, Voi's efficient offering can save you time and stress when selecting and purchasing office furniture. The line was carefully designed to provide a range of options that are simple to specify and easy to assemble. And once installed, Voi components can be reconfigured easily to enable a variety of different work styles.

**PRIVATE OFFICE**  
In conventional finishes and configurations, Voi looks right at home in more conservative workplaces.

**SMALLER FOOTPRINTS**  
Voi lets you conserve floor space while still providing plenty of useable workspace area.

**LAYERING WORKSURFACES**  
By allowing you to layer worksurfaces over shelves or storage, Voi delivers more storage options even in smaller footprints.

**BOOKCASE SUPPORTS**  
A bookcase can be used to provide worksurface support, turning wasted space into useful storage or display space.

**LESS IS SO MUCH MORE**  
Voi's refined scale and compact configurations allow you to enhance the efficiency of your space without sacrificing the efficiency of your people. The variety of storage options—including credenzas that fit neatly below worksurfaces to create a highly functional layering effect—gives you more desk in the same footprint as your current desk.

## LIGHT AND TOUGH

Voi may bring a lighter scale to desking, but it's built to be tough. Its strong internal frame and sturdy metal-to-metal construction deliver the durability you expect from HON. Top-grade laminate resists scratches, stains, and wear. And it's all covered by The HON Company's Limited Lifetime Warranty.
